

MAXXTHOR™ DEUCE

TERMITICIDE & INSECTICIDE

DOUBLE STRENGTH - 200g/L BIFENTHRIN

DOUBLE THE STRENGTH

DOUBLE THE VALUE

DOUBLE TROUBLE FOR PESTS

MAXXTHOR DEUCE 'double strength' Termiticide & Insecticide is easy to use; with only half the regular amount needed, it's easier to store, transport and apply. It's also double trouble for termites and insects with the same water-based, micro-fine suspension concentrate presentation as regular MAXXTHOR; it is more efficient at killing insects, penetrates the spiracles more effectively and provides better soil penetration.

STRONG

Containing 200g/L bifenthrin, MAXXTHOR DEUCE is double the strength of other bifenthrin products

WATER BASED

The unique water-based solution is more effective for the control of termites and killing a wide range of pests

QUALITY

Uses Ensystex's Microbial Protection Blend™ ensuring the highest quality product at all times

EASY

Has a large range of application techniques, including trenching, rodding, reticulation and spraying

RELIABLE

Covered by Ensystex's Ten Year Performance Guarantee*

SAFER

Water based solution is safer to use, especially in spray units

* Conditions apply.

MAXXTHOR™ DEUCE TERMITICIDE & INSECTICIDE

DOUBLE STRENGTH - 200g/L BIFENTHRIN

MAXXTHOR DEUCE: Double the Deal

MAXXTHOR DEUCE is registered for indoor and outdoor applications. This increases the flexibility of use and allows for a 'one product delivers all' approach. Being a broad spectrum, long residual liquid insecticide and termiticide, MAXXTHOR DEUCE is also a cost effective alternative to other bifenthrin products. Plus the low odour will be welcomed by your staff and clients.

It's friendly to your environment

Plants are not affected and continue to thrive after application. In fact the active ingredient used in the MAXXTHOR DEUCE is approved for use on food crops. Application is odourless and invisible to the naked eye.

Registered for use against a wide range of pest species

PEST	SITUATIONS
Spiders, Papernest Wasps, Ants, Cockroaches, Mosquitoes, Fleas, Flies, Ticks (Adults & Nymphs)	Internal and external areas and surrounds of domestic, commercial, public and industrial buildings and structures.
