DIRECTIONS FOR USE FOR 40 g SMOKE GENERATOR

SITUATIONS	PESTS CONTROLLED	RATE	CRITICAL COMMENTS
Commercial, industrial, agricultural, domestic and public services buildings	Ants, cockroaches, fleas, flies, mosquitoes, hide beetles, stored product insects (rice weevil, lesser mealworm, confused flour beetle, Angoumois grain moth)	1 generator / 250 m ³	Refer to "General Instructions" before using this product. Insects active at the time of smoke release will be controlled, but those hatching from eggs, immigrant insects or storage insects emerging from commodity residues may not be controlled.
	Bed bugs		Users undertaking a bed bug treatment should be familiar with the AEPMA Code of Practice for the Control of Bed Bug Infestations in Australia and take into account the recommendations included within this document in relation to bed bug management. Bed bugs active at the time of smoke release will be controlled, but those residing in very protected areas or hatching from eggs after application may not be controlled. Reinspection in accord with the Code of Practice is essential . A second smoke release, 5 to 12 days later, may be required to reduce the insect population to an acceptable level.
Glasshouses ornamentals only	Ants, cockroaches, fleas, flies, mosquitoes.	1 generator / 500 m ³	Refer to "General Instructions" before using this product. If pest populations are heavy, a second smoke release 2 to 3 days later may be required to reduce the insect population to an acceptable level. For best results use late in the evening, leaving treated area closed-up overnight.
Agricultural buildings and animal housing	Flies, mosquitoes.		

NOT TO BE USED FOR ANY PURPOSE, OR IN ANY MANNER, CONTRARY TO THIS LABEL UNLESS AUTHORISED UNDER APPROPRIATE LEGISLATION.

GENERAL INSTRUCTIONS

Remove people, animals, fish and birds from area to be treated. For best results, ignite the generator late in the evening and leave area closed overnight. Place the generator on a fireproof base at least 700 mm in diameter, on a protective floor covering or in a metal bucket. DO NOT remove the generator from immediate packaging. To ignite, using a match, light the wick. Always ignite those generators furthest away, lighting those nearest your exit last. Leave immediately after lighting smoke generators. The generator will burn for approximately 30-45 seconds, however, keep area airtight for at least 3 hours after lighting. Ventilate for 30 minutes before re-entry.

PRECAUTIONS

DO NOT use in premises when food producing animals are present.

Remove or cover exposed food, food utensils, food processing areas, pet bowls and fish tanks. Aerators should be turned off while the product is in use and while the aquarium is covered.

Turn off or isolate smoke detectors before using this product.

Remove all RAYON and SILK fabrics (clothing, curtains, drapes, etc.) from the area to be treated as discolouration may result.

The product must not be used on plants that are intended to produce food for consumption by humans or animals. The product must not be applied to areas that may be grazed by food producing animals.

RE-ENTRY

Keep area airtight for at least 3 hours after lighting. Ventilate for 30 minutes before re-entry.

PROTECTION OF WILDLIFE, FISH, CRUSTACEANS AND ENVIRONMENT

Extremely dangerous to fish. Fish tanks and aquariums should be removed or covered prior to use of this product. DO NOT contaminate streams, rivers or waterways with the chemical or used containers.

STORAGE AND DISPOSAL

Store in the closed, original container in a dry, cool, well-ventilated area out of direct sunlight. Dispose of used smoke generator safely, wrap empty generator in paper and place in waste bin. DO NOT re-use.

SAFETY DIRECTIONS

DO NOT inhale vapour. Leave immediately after lighting smoke generators. Thoroughly ventilate treated areas before re-occupying.

FIRST AID

If poisoning occurs, contact a doctor or Poisons Information Centre. Phone Australia 13 11 26, New Zealand 0800 764 766.

SAFETY DATA SHEET

Additional information is listed in the Safety Data Sheet which is available from Ensystem on request.

NOTICE

Ensystem warrants that this product conforms to its chemical description and is reasonably fit for the purposes stated on the label when used in accordance with Directions for Use under normal conditions of use. No warranty of merchantability or fitness for a particular purpose, express or implied, extends to the use of the product contrary to label instructions or under off-label permits not endorsed by Ensystem, or under abnormal conditions.
