HOW TO USE:

Shake can well before using. Keep can as upright as possible and hold about 15-20 cm from the surface. Avoid using on plastic surfaces. Treating surfaces with AEROTHOR Extra Strength Crawling Insect Spray will kill and protect against a large range of crawling insects. For direct kill spray in the direction of the crawling insect. e.g.

Cockroaches - Spray skirting boards, under cupboards, behind stoves and refrigerators, and other places where cockroaches live and hide.

Silverfish - Spray architraves, bookshelves and other areas where paper is stored

Ants - Spray around garbage bins and food disposal areas and entry points.

Fleas - Infested rooms should be closed and treated by thoroughly spraying the carpet. Ventilate the room 4 hours after use. Ensure adequate ventilation during use.

Carpet Beetles - Lightly spray carpets particularly in areas of little or no traffic, lightly spray under lounge chairs and along skirting boards.

Spiders - Spray onto eaves, cobwebs and other sites where spiders lurk.

Clothes Moths - Spray storage areas and in emptied drawers and wardrobes.

Bed Bugs - Spray areas where bed bugs hide such as bed frames, floors and skirting boards.

Millipedes - Thoroughly spray surfaces where millipedes enter to maintain an insecticide barrier.
