Very toxic to fish and aquatic organisms. Avoid contamination of any water supply with product of empty container MAXXTHOR must not be applied onto or into water

wear protective clothing such eating, drinking and after work.

Harmful to the soil environment. clothing daily. Toxic to terrestrial vertebrates. Harmful - May be harmful if Very toxic to terrestrial

Keen out of reach of children Avoid contact with skin and eves and inhalation of spray mist.

When mixing and applying as goggles, waterproof gloves, cotton overalls and hoots. Wash hands and exposed skin before Wash gloves and protective

DIRECTIONS FOR USE

RESTRAINTS Do NOT use this product at less than nor greater than the indicated label rates.

Do NOT apply to soils if excessively wet or immediately after heavy rain to avoid run-off of the chemical. Do NOT use in cavity walls (except via certified cavity infill reticulation systems or for direct treatment of the nest).

PEST	SITUATIONS	RATE/10L	CRITICAL COMMENTS
Spiders	Internal & external areas & surrounds of Domestic, Commercial, Public and Industrial buildings & structures.	25 - 50 mL	Use the higher rate in situations where pest pressure is high and/or maximum residual protection is desired. Pay particular attention to dark areas such as cracks and crevices. For maximum protection use a two-part treatment. 1. Treatment of cracks and crevices. 2. Overall surface spray.
Wasps		50 mL	Apply prepared suspension to the point of run-off directly to the nest ensuring thorough and even coverage. When all adult wasps have been knocked down the nest may be safely removed from the structure.
Ants, Cockroaches, Mosquitoes, Biting midges, Fleas, Ticks, Flies, Biting insects, Sheep blowflies, Silverfish, Clothes moths, Bed bugs, Millipedes		50-100 mL	Apply prepared suspension to indoor and outdoor surfaces where insect rest or harbour. For perimeter treatments apply the prepared suspension to a band of soil or vegetation two to three metres wide around and adjacent to the structure. Also treat the foundation of the structure to a height of approximately one metre. Reapply as necessary.

If swallowed wash out mouth with water, Do NOT induce vomiting but contact the National Poisons Centre 0800 POISON (0800 764 766) or a doctor immediately. If contact in the eyes washout with running water for at least 15 minutes. If spilt on skin or hair wash with plenty of soap and water.

NOTES

The treated area must be ventilated following application. Do NOT spray directly on humans, pets or animals. Remove any animals or pets from areas to be treated and do not allow humans or pets to enter until the spray has dried. Cover or remove any open food or water containers, fishnoods and aquariums before spraying. Avoid contact with food, food utensils or preparation. surfaces and wash thoroughly treated surfaces and items after application.

Store in closed original containers, in a cool, well ventilated area away from children, animals, food and feedstriffs. Do not store for prolonged periods in direct sunlight

Spillage: In case of spillage, confine and absorb spilled product with absorbent material such as sand, clay or cat litter. Dispose of waste in an appropriate landfill.

Disnosal: Do not re-use empty container but triple or preferably pressure rinse containers before disnosal. Add rinsings to spray tank. If recycling, replace cap and return clean containers to recycler or designated collection point. Otherwise, do not burn but puncture, crush and bury empty containers in a local authority landfill. If no landfill is available, bury the containers below 500 mm in a disposal nit clear of waterways
