

DELTATHOR[®]

INSECTICIDE

The proven, high performance, quality insecticide that combines the most powerful residual action with the safety features you demand for long lasting control of insects.

DELTATHOR PRODUCT DETAILS

- ✓ **Micro-fine Suspension Concentrate;**
Most suspension concentrates use particle sizes closer to 10 - 20 microns. DELTATHOR has a uniform particle size of less than 5 microns. The micro-fine particle size gives you faster kill effects on insects and spiders. This is because the smaller particles penetrate the insect's cuticle quicker for fast control.
- ✓ **Withstands degradation by sunlight, heat & once dry is unaffected by rain;** To give you a better result and fewer call-backs.
- ✓ **Highest quality suspension formulation;**
This ensures DELTATHOR stays in suspension in your tank longer to give you optimal results.
- ✓ **High quality water-based suspension concentrate;**
To give you improved residual performance and no visible residues.
- ✓ **No hydrocarbon solvents;** Which means no worries about staining, no odour and no damage to your equipment, seals or pumps.
- ✓ **Approved for use indoors and outdoors, in food handling premises, hospitals, etc;** To give you maximum flexibility in your use of DELTATHOR.
- ✓ **Rapidly metabolised in plants and mammals;**
Making it safe to use in even the most sensitive environments.

DELTATHOR PRODUCT DETAILS

| | |
|---------------------------|--|
| Active Ingredient: | 10 g/L deltamethrin |
| Insecticide Group: | Pyrethroid |
| Formulation Type: | Micro-fine suspension concentrate |
| Pests Controlled: | Cockroaches, spiders, ants, fleas, silverfish, bed bugs, bird mites, carpet beetles, clothes moths, stored product insects, quarantine pests, five-spined bark beetles, furniture beetles, auger beetles, powderpost beetles, flies and mosquitoes |
| Pack Size/ Code: | 5 L (CHEDE1000) 1 L (CHEDE1002) |
| Resistance Group: | 3A |

DELTATHOR is the ideal product for treating pests of timber and stored product insects.

PERFORMANCE

DELTATHOR contains deltamethrin which remains arguably the most active of all the residual pyrethroids. This is because the deltamethrin in DELTATHOR is a pure, single isomer blend (Simplistically, an isomer is how the chemical is shaped). Different chemical isomers perform differently, and the blend in DELTATHOR is the most pure and insecticidally active giving you premium performance.

Deltamethrin has been registered in Australia for use by Pest Management Professionals since 1984, and personnel at Ensysyex have been associated with the development and support of deltamethrin since before then, so you can be sure of quality advice and care. The high performance, quality insecticide that combines the powerful residual action of an alternative pyrethroid active whilst providing flush-out and knock down in the toughest situations.
